

Amar Delil – Software Developer CV

SUMMARY

With 1 year of experience in software development, I bring a strong foundation in frontend design, PHP backend development, and database management. My technical expertise includes hands-on experience with AWS, Vercel, and Render for cloud deployment. I am passionate about turning complex ideas into simple, beautiful, and interactive digital realities, with a focus on building clean, functional web applications.

EXPERIENCE

- **Software Developer**** (Self-employed / Freelance)

2025 - Present · Addis Ababa, Ethiopia

- Developed full-stack web applications using PHP, HTML, CSS, and JavaScript, delivering responsive and user-friendly interfaces.
 - Built and deployed cloud-based applications on AWS, Vercel, and Render, ensuring scalability and reliable performance.
 - Designed and implemented database solutions for various web projects, optimizing data retrieval and storage processes.
 - Created interactive web tools including an Ethiopian Salary Calculator with real-time tax and pension calculations.
 - Developed a modern hotel booking system with room reservations, availability checking, and payment integration.
 - Built a premium Ethiopian coffee brand landing page with contact form, gallery, and AJAX-powered PHP backend.
-

EDUCATION

- Bachelor of Science in **Computer Science** (3rd Year)

Admas University · Addis Ababa, Ethiopia

2023 - Present

PROJECTS(recent projects)

Ethiopian Salary Calculator .

[\[github.com/amardelil/ethiopian-salary-calculator\]](https://github.com/amardelil/ethiopian-salary-calculator)

A modern web tool that calculates net monthly salary after Ethiopian income tax and pension contributions. Features real-time calculation, accurate tax brackets based on Ethiopian 2024 rates, PDF export, and a clean responsive design. Built with HTML, CSS, and JavaScript.

****Yegna Coffee – Premium Ethiopian Coffee**** .

[\[github.com/amardelil/yegna-coffee\]](https://github.com/amardelil/yegna-coffee)

A modern, responsive business landing page for a premium Ethiopian coffee brand. Features include fully responsive design, smooth scrolling, interactive gallery, contact form with AJAX submission and PHP backend, WhatsApp floating button, and Ethiopian coffee culture theme. Built with HTML5, CSS3, JavaScript, and PHP.

****Simple Personal Banking System**** .

[\[github.com/amardelil/Simple-Personal-Banking-System\]](https://github.com/amardelil/Simple-Personal-Banking-System)

A minimalist personal wallet utility engine built using procedural PHP scripting architectures with integrated configuration parameter controls via independent script routing.

SKILLS

Category	Technologies
Frontend	HTML5, CSS3, JavaScript (ES6), Responsive Design, UI/UX Design
Backend	PHP, Java
Databases	MySQL, Database Design & Management
Cloud Platforms	AWS, Vercel, Render
Desktop Development	Java Swing, AWT
Tools & Libraries	Font Awesome, html2pdf.js, Git
Core Concepts	Data Structures, Algorithms, Object-Oriented Programming, State Machines

COURSES

4 Certifications from **Ethiocoder Initiative**** (via Coursera)

Completed 2025-2026

Certifications in software development fundamentals, covering frontend and backend technologies, obtained through the Ethiocoder Initiative program on Coursera.

PASSIONS

****Web & Mobile Application Development Enthusiast****

Passionate about building intuitive, responsive, and user-centric web and mobile applications. Eagerly following advancements in modern frontend frameworks, cloud technologies, and UI/UX design patterns to create seamless digital experiences.
